

# Praise Report Log

Date	Name	Testimonial Reports
10/22/2020	Sister Elaine	Praises the Lord for answered prayer for a beloved friend. Sister Elaine had asked us to keep her dear, sweet friend and coworker named Kay in prayer as she had a cyst in her stomach that was diagnosed as possibly cancerous and would need to undergo surgery. Sister Elaine shares an update from Kay's daughter that the surgery went very well. Praise God! Sister Elaine couldn't be happier that all worked out well for her good friend, Kay and the surgery was successful. Thank you for your prayers! 😊
10/22/2020	Sister Elaine	Praises the Lord; for with Him all things are possible! Sister Elaine had asked us to keep her dad (as well as all the elderly individuals residing in nursing homes) to be allowed visitations, even limited visitations if possible. That the opportunity would come for her and her family to have some visiting time with him as his health appears to progressively decline and become worse. And can we say together that the Lord is good as we learn from Sister Elaine that God heard our prayers and made visitation with her dad possible! Oh how God is so good! Well, it was very exciting to receive news that the nursing home where Sister Elaine's dad resides has begun to allow visitations. However, there is one problem. Sister Elaine's dad is bedridden and it would take a lot of energy for him, with the help of the nursing staff, to get to the patio where the visitations are held for an allotted time of 30 minutes. Sister Elaine's dad chooses not to partake in visitations at this time because of the overwhelming task of getting him to the patio, which heartbreaking for the family. Let us please keep Sister Elaine's dad in prayer; and pray that the Lord would work things out for it to be easier on her dad to enjoy visitation from his family. Thank you.
