11/19/2020	Sister Elaine	<p>Shares an updated report on the behalf on Brother Etabo. Brother Etabo had been experiencing sickness again while in Kakuma. He had been diagnosed with malaria and a blood infection on Friday Nov 6th and had asked for prayer. Brother Etabo shares, “[I] am feeling very good. [I’ve] been taking some exercise and extra care with the food I eat. Thank you so much for your prayers of faith in Christ Jesus. May God bless your fellowship so much and keep all of you safe in this trying moment. May you have a blessed upper room experience. Thank you.” What wonderful news! Praise God!</p>
11/19/2020	Sister Christine	<p>Shares a praise update. Sister Christine had much praise upon her lips as she shared how God helped her overcome her fever, fatigue, and achiness about a week ago. Her praise continues as she had also asked us to keep her in prayer as she awaited her COVID test results. Sister Christine shares the wonderful news that her COVID test came back negative! Praise the Lord! She shares, “On Wednesday 11/4/20, I was running a fever 100.0 for about 10 hours. When I woke up in the morning the fever was gone and by around noon the muscle aches and headache were gone also. But I got a COVID test Friday 11/6/20, [the] soonest I could get one, just in case. By Monday the test came back negative. There have been no symptoms since, so I think it was just a 24 hour flu. But, it was a great reminder of how easy the flu and viruses can be gotten. I ended up in a couple of situations where I thought I was alone but then I wasn’t and wished I had a mask in my pocket. [I] then ended up with the flu even though I was social distancing. But God is so good to us and gave me a good warning instead of COVID. Praise the Lord!”</p> <p>Amen. Praise the Lord indeed!</p>
11/19/2020	Sister Lana	<p>Praises the Lord that her parents are alive and well! Sister Lana is grateful for God’s mercy and kindness towards her parents in gracing them with time, especially her 70 year old father who has abused his body through the use of substance, and yet has been kept from dying</p>
