Sister Elaine	Asks that we keep in prayer her family, specifically her dad. He is in a nursing home with a fractured knee. And he recently got his biopsy results on the growth on his head, which has been diagnosed as a squamous cell cancer. Due to the Covid-19, the hospital has enforced no visitations for the patients in care, which prohibits families and friends from visiting their loved one(s). Sister Elaine would make time out of every month to visit with her dad, and now she has been restricted in visiting with her dad who is in a very fragile and critical state right now. It breaks her heart to witness what he's experiencing, and with all that she knows, and not be there to support him as she would like to. Please keep Sister Elaine, her father, and family in prayer. Thank you.	03/12/2020
Members of Sac Fellowship	Asks that we keep in prayer all affected by the coronavirus outbreak. It is spreading like wildfire and is deadly, and now has been officially announced as a pandemic outbreak. Pray for protection for those unknowingly exposed and for those who are stuck in places where the virus is hit very strong. Thank you.	03/12/2020
