Select Members of Sac Fellowship	Asks that we keep Sister Toni and her brother Mark in prayer. We ask specifically that the Lord would bless Mark with happiness and understanding. As Mark's health declines it really puts a damper in his mood. Sister Toni expressed it as a "turning point" on the day, which was about a week ago, that her brother, Mark, couldn't remember how to feed himself. Mark has trouble seeing directly and that inhibits him from doing the things he used to be able to do, which only adds to his frustration because he is more dependent now than he was before. And losing his autonomy is very difficult for him. It hurts Sister Toni to watch her brother, Mark's health decline daily. She asks for prayer as well, that the Lord would give her patience, a soft voice, and a smile at every situation when caring for her brother. Sister Toni shares, "I watch my brother deteriorate and it breaks my heart, but I can't let him see me sad. So we both need the presence of angels and God." Let us remember Sister Toni and her brother, Mark, in our prayers. Thank you.	07/30/2020
Brother Larry	Asks for prayer for his family, specifically his niece Justine. Brother Larry shares, that Justine has symptoms of COVID-19: low grade fever, chills, bland taste, and she loses her voice on and off. She's had these symptoms for over a week; although the fever and chills only started a couple of days ago. Brother Larry also shares that his niece Justine has asthma and allergies and attributed her earlier symptoms to that. She had gone swimming with allergy symptoms, which she convinced herself added to the problem. Justine will be getting tested [7/31/2020] for COVID-19. Brother Larry expresses, "She's such sweetheart. She was the one who jumped out ahead of all of us and made sure we all had masks and gloves and she put the signs up for employees and customers explaining the new restrictions etc. She's been most careful in her personal and work environment. And so now she's discouraged because she may have it." It was told to Brother Larry's niece Justine that it would be 6 days till she gets the results. May we keep Justine in our prayers. Thank you.	07/30/2020

Sister Linda	Asks that we keep her and her family in prayer, specifically that they would all come through without any positive test results or infections of COVID-19. Thank you.	07/30/2020
Sister Lana	Asks that we keep a dear friend of hers named Connie Fox in prayer. Connie was diagnosed with leukemia. Connie has effortlessly spent time and money to fight and rid herself of the disease to no avail. Though she has fallen discouraged many times, she has not lost hope in her search for a cure. She is currently a participant in a trial research treatment study that is orchestrated to help individuals with leukemia overcome the disease. Pray this be a helpful experiment for Connie and that it works out for her as to her specific case in finding a remedy and possibly more answers on how to fight against the disease. Thank you.	07/30/2020
Sister Christine	Asks that we keep her family in prayer, specifically her sister Stephanie, who has a blood inflection in her body. Sister Christine shares the blood infection in the body is taking its toll upon her sister, Stephanie and is possibly contributing to negative affects upon her mind. Sister Christine states, "She has Type 1 diabetes and a lot of complications. The blood infection is just one." Stephanie is currently residing in a nursing home, which makes it difficult for family, including Sister Christine and Brother Francisco to visit her due to the current pandemic. Furthermore, they're not given much detailed information about Stephanie's well-being, but just general, standard information. And so, Sister Christine doesn't know what more to do. Let us remember to keep Stephanie in our prayers. Pray that Lord would give peace, comfort, and wisdom to Sister Christine. Thank you.	07/30/2020
Sister LoGina	Asks that we keep her family in prayer, specifically praying for Brother Fel's mom, Suk (also known as Grandma Suk). She recently loss the love of her life, Curtis (also known as Grandpa Curtis). Grandpa Curtis passed away at 1am on July 29, 2020 at age 95. He was a kind man and good man. Grandma Suk and Grandpa Curtis were together for 45 years. It was very overwhelming and hard for Grandma Suk, a Korean lady of 80 years to let go of her husband. Brother Fel's mom, Grandma Suk, is okay for the moment. But, Sister LoGina shares that, "Initially she wanted everything done to keep Grandpa Curtis alive and he was full code in the hospital. May the Lord bless Grandma Suk with peace and comfort as she grieves her loss. May the Lord surround the family with special angels to cheer their spirit and console them in their time of need. Also to be with Brother Fel as he is currently caring and being a support for his mom at this time.</p>	
<p>Members of Sac Fellowship</p>	<p>A year ago Elder Parminder was warned by FFA that the leaders of the Movement would be cursed for rejecting their message on Islam (their July 18th Nashville prophecy) and declaring to the followers to decide who has the true message on Islam. Is Islam rising or coming down this year? FFA believes Islam is rising up. The Movement believes Islam will be restrained. The Movement believes this because Islam is tied to Russia. Islam becomes restrained as Russia loses its influence. So, Elder Parminder is asking us to pray—next hours, days, and weeks for God to give us an increase of knowledge on Islam. July 18, 2020 is not that far away. Elder Parminder says, "If we don't pray, don't confess our sins, what hope will we have in the Lord giving us more light on Islam." Let us pray fervently and incessantly. Thank you.</p>	<p>07/30/2020</p>
<p>Members of Sac Fellowship</p>	<p>Asks that we keep in prayer all affected by the coronavirus pandemic outbreak. It is still spreading, though in some places the severity has lessened a little, but is still at risk for a sudden spike in cases (and possible 2nd wave). As people continue to adjust to the new normal, please pray for protection for those unknowingly exposed and for those who are stuck in places where the virus is hit very strong. Thank you.</p>	<p>07/30/2020</p>
