Brother Larry	Asks that we keep him in prayer addressing specifically a situation he faces at work. A fellow employee of his is into vaping. Brother Larry expresses that He suffers an allergic reaction to the point where his face and body gets numb whenever he comes in contact with the vaping residue of his fellow coworker. His niece, who works in a much closer working situation with the fellow coworker, is also affected negatively by his vaping—her chest hurts when he vapes. Bother Larry asks that as we lift this situation up in prayer, that we pray for a resolution to this problem. The fellow coworker is deemed very valuable. So, he prays that his employers are given the courage and wisdom to deal with this situation.	10/15/2019
Sister Antoinette	Asks that we keep Andrew Fields, His family, and the country of Ecuador in prayer. They currently reside in Ecuador. The family shares that Ecuador is in a state of emergency. In Quito, martial law has been declared, No one can leave their house and it looks like a warzone. They praise the Lord that where they reside it hasn't gotten that bad. They hope they'll be able to leave the country when it's time. Food supplies are running low in the stores and people are dying as well among many other horrible tragedies. Please keep them in your prayers.	10/15/2019
