Sister Antoinette	Asks that we keep in prayer a friend of hers she knew in her 20's whose name is Victor. He cares for his dad who is 90 years old. His dad fractured his back. He also helps and cares for his mom. He took time off from work to help them, Pray for healing for his dad. He's doing better, but needs continual prayer. Pray for God to continue to give them the strength to hang in there and to keep going forward until there is a complete recovery if it be God's will.	12/03/2019

Sister Laurence	Ask that we keep their daughter, Kirsten Hannah in prayer, Their daughter has been "tormented with UTIs recurring again and again affecting up to her kidneys causing the formation of a bleeding cyst—she received treatment after treatment with antibiotics—they don't know how to help—these crisis cause her pain and sleepless nights affecting her studies and work—I am now with her and tonight (11/28/2019) she accepted the offer to call onto the Lord and be prayed over—please join in praising the Lord for the Lord's compassion and His healing power for we know the promises given us—please pray that she would fight doubt and not give up—may the mighty hand of our God be seen—as I brought various products from the Lord's pharmacy—she welcoming them nevertheless needs to drop her "worldly lifestyle" accepting the rules of health in eating, drinking, sleeping, etc.—as we are all inspired in different ways by the Holy Spirit—being on different continents." Let us keep this in prayer.	12/03/2019
