Sister Chenyu L.	Asks for continual prayer for her family and herself. She asks that we pray fervently for her as she is very worried and anxious concerning her husband's arrival to the State. Her husband works in China and is expected to arrive home sometime today. He is not a religious man and does not study this message. He has no desire to and isn't very happy with her studying the Bible and the present truth she is learning. She states that he is controlling and thinks she is wrong. She really needs our prayers concerning this situation. That the Lord will give her strength and soften the heart of her husband.	9/10/2019
Select Members of Sacramento Fellowship	Please keep sister Patty in prayer. She is not on board with some of the messages that have been currently coming out from The Movement. We pray she gets the understanding of the present truth where she struggles. We also include all others who are also struggling with keeping up with The Movement and embracing the truth laid out before them. It is such a solemn time and many are falling away from the narrow path. Much prayer is needed.	9/10/2019
Sister Antoinette	Asks that we continue to lift her friend Dovie in prayer. She is itchy and hurting all over her body due to a really horrible rash outbreak at the moment. She is 83 years old and has a hard time caring for herself. She needs somebody who can live with her and assist her with her daily needs or to be placed in a boarding home for the elderly. She asks us to join her in praying that the Lord will open the door for her friend to get the help necessary to ease her as she ages.	9/10/2019
Sister Antoinette	Asks that we keep her in prayer. At the end of the year 2013-2014, she underwent 2 major surgeries. She has neuropathy in her left leg which causes her to experience severe pain. She shares that due to the surgery and neuropathy, she locks up anywhere from 3 to 7 times a night, which interferes with her sleep. Her toes would cramp up and she would have to step on it to help it. The pain would be excruciating. She does all she can on her part to help rid the pain. She says that it seems to be getting worse. The pain now rises to her thighs to where her thigh will lock up and cause her much pain, even as she sits in for Bible Studies at times. She prays for the strength to embrace it and to not allow it to get her down. She is still capable to present, but she just asks that the Lord would relieve her of the pain if it be His will and to keep pressing on even as she suffers with this affliction and pain.	9/10/2019
Sister Suzan	Asks that we pray for her mother's sanity. She shares that her mother is over anxious about everything, but extremely anxious about money	9/10/2019
