

## 1. Acts 27 (Part 1).

01:00 - **WHOSE KINGDOM IS THE KoS IN? WHO IS HIS 'BOSS'?**

03:00 - Is. 14:12-13, Ps. 48:1-2, Satan is the counterfeit KoN. His kingdom is the statue of Dan. 2. The stone is God's kingdom. The KoS does not have a kingdom. Ancient Egypt is not in Satan's kingdom (the statue). Egypt is not part of God's kingdom, nor Satan's.

10:00 - Satan was using Hitler and the papacy (Satan's kingdom) to achieve his end. So why would Satan tell Stalin to take down Hitler? It wasn't God controlling Stalin as he killed God's people as well as Satan's people. Reference to Parminder's study on the nature of man, and being able to exercise your own free will to do good or bad.

13:00 - Who's controlling Putin? Putin is holding back Satan's plans to pass a SL. So Satan can't be using Putin.

15:00 - God or Satan might use the KoS or Islam but it does not mean they become part of their kingdoms. God or Satan are not their "boss". The parable of Dan. 2 shows when God uses the KoN he is still part of Satan's kingdom.

19:00 - During the 1260, in 1773 when the papacy disobeys her boss (Satan) and abolishes the Jesuit order, she does not become part of God's kingdom, nor become more moral. The papacy was in rebellion to Satan but still not under God's control. They're just doing their own will.

28:00 - Nor can you take the papacy out of the statue when she is disobeying Satan. Satan used the KoS to scatter his own people (the papacy) in 1798, much like God or Satan can use Islam from time to time, but these powers do not have a 'boss'.

31:30 - **PARABLE TEACHING.**

32:00 - Discussion on SpTed 672.3 and COL 20.3 regarding parable teaching.

38:00 - 8T 267.2, at Pentecost, when the Holy Spirit was poured out, the disciples understood Christ's parables. They became ashamed of their former suppositions and "*fanciful theories*" i.e. conspiracy theories.

43:30 - We can approach Acts 27 as a parable.

45:00 - **ACTS 27.**

45:00 - The ship of Adramyttium. Felix and Festus chose to remain "abiding in death" rather than be "cut out" at Caesarea (Acts 24:24-25) when Paul gives them the 3 angel's messages.

52:00 - AA 425.3, primarily Paul was giving the 1st AM to Felix and Drusilla. Felix married her illegitimately by employing a "false prophet" (Simon Magus) who appears later in this study. She was a Jewess, so church and state is represented at Caesarea/ToE/1A.

58:30 - AA 427.2 and Acts 24:27, Felix rejected the 1st AM and he never received another call from God.

1:00 - Change in state leadership from Felix to Festus at Caesarea (symbolising the USA in 1989) represents Reagan to Bush, Cyrus to Darius, 5th to the 6th kingdom of Bible prophecy etc.

1:05 - Acts 25:13-14, Agrippa was a Jewish king who oversaw the temple and 1 of 3 men who appointed the high priest (religious authority), representing the SDA church structure.

1:06 - Acts 25:22-23, 26:1-3 and 26:24-27. Summary of the application of Felix, Festus and Agrippa. They represent the 2 institutions of the USA and Adventism.

1:12 - LP 255.2, Agrippa remembered his family's history as he heard Paul. Agrippa was the 4th generation.

## 2. Acts 27 (Part 2).

01:00 - **WHOSE KINGDOM IS THE KoS IN? WHO IS HIS 'BOSS'?**

01:00 - Review and further discussion on the KoN counterfeiting Christ and His kingdom.

06:00 - As God's church changes dispensation, Satan has to counterfeit that. As God's sacrificial system ended, Satan's kingdom soon changed from paganism to papalism.

10:30 - Which kingdom of Dan. 2 is the KoS part of? KoS works directly against both God's purposes and Satan's. KoS has no boss, illustrated using Stalin as an example. You can sin on your own, without Satan's temptation.

15:00 - Review of 1773 and the scattering of the papacy in 1798 pertaining to the papacy doing evil without

obeying her boss, Satan. They are doing evil without Satan's temptation.

20:00 - Satan uses France (KoS) to scatter his people in 1798. Comparison with the scattering of ancient Israel.

25:00 - Both KoS and Islam are independent entities whom either God or Satan can use from time to time.

26:00 - Parminder's presentations on the nature of man explains that man can be good without God and evil without Satan. Stalin was evil so not part of God's kingdom but worked against Satan in setting up his kingdom through Hitler and the papacy. So Stalin (KoS) could not have been part of God or Satan's kingdom.

29:00 - **REVIEW OF PARABLE TEACHING FROM LAST PRESENTATION.**

37:00 - **ACTS 27.**

37:00 - Review of last presentation on Acts 27.

47:30 - The ship of Adramyttium traces the story of both the USA and Adventism.

48:00 - Acts 27:1-5. "Sidon" means "lying in wait" as in hunting, hence represents waiting or tarrying.

51:00 - Gen. 10:6 and 15, Sidon was the 4th generation; Noah, Ham, Canaan and Sidon.

51:45 - Acts 27:4, Cyprus (Heb: Kittim) was the 4th generation. Gen. 10:4, Kittim was the son of Javan (v2) who was the son of Japeth (v2) who was the son of Noah (v1).

52:45 - So Agrippa, Sidon and Cyprus all point us to the 4th generation.

53:15 - Jer. 25:22, Joel 3:4, Ezek. 28-29 say Sidon is grouped as 1 of 3 powers. Tyre is the papacy. Sidon is the USA. The ship is at Sidon = 911 when Paul is refreshed.

55:30 - "Cyprus" means "fair" or "pure". Song of Solomon 4:7 says fair means "there is no spot in thee". See also EW 238. The ship at Cyprus = MC.

58:30 - Acts 27:5, "Myra" means "bitterness". "Lycia" is from the meaning "white harvest", the same meaning as "Argos", where Pyrrhus dies. Lycia = SL.

1:02 - Acts 27:5, "Cilicia" means "overturn" and "Pamphylia" means "a nation made up of every tribe". SL = end of 6th kingdom (USA/Felix and Festus) and beginning of 7th (UN).

1:06 - Next presentation will look at USA bringing in the SL, then forcing the rest of the world when it is head of the 7th kingdom (UN). USA has more power during the 7th kingdom than the 6th.

### 3. Acts 27 (Part 3).

00:00 - **REVIEW OF ACTS 27 FROM LAST PRESENTATION.**

03:00 - **THE 2ND SHIP OF ACTS 27.**

03:30 - Acts 27:6, "Alexandria" means "protector/defender of the people". Paul boards at Myra.

07:00 - Acts 27:13-14, "Euroclydon" means "east wind" = 911. "Lasea" means "wise" = 1989. This line is a repeat and enlarge of the line of vs 1-5.

13:00 - Paul gives a message to the leaders at Caesarea and at Lasea (v10). South wind = KoS.

14:30 - Myra and Lycia (v5) on this line = Oct. 22, 1844 (Rev. 10:10) which also = Millerites CoP/harvest. This ship carried wheat from Alexandria (ref: v38) which represents 1798, when USA and Adventism both began (GC 441.1). In 1798 the role of the USA and Adventism was to defend the people.

24:00 - In 1844 (v6, Myra and Lycia) the horn of Protestantism was broken in the USA (GC 376.1 - 377).

30:30 - Acts 27:7-8, referring to a map, the ship is blown off course and never get back on course = 1863.

38:00 - In 1863 Adventism reject their prophetic message (the 2520). USA is in civil war (1861-1865), also blown off course. Today very few understand what both the USA or Adventism were raised up to do.

41:30 - Between 1798 and 1863 America was required to end slavery, but they did not so EGW says the Civil War was God's punishment for that.

44:30 - The condition of America today is the same as Adventism today (it's the same ship), complete darkness. So do we even know what making America great again should look like?

45:00 - When America amends the Constitution in 1865 to allow former slaves to vote, they also introduce male pronouns into the Constitution, thus excluding women. So America hardly learnt their lesson in that time regarding equality.

47:30 - Shipwreck for both the USA and Adventism is SL, followed by the harvest.

49:00 - Question about the return of slavery in the future based on EGW quotes to that effect. Sister Tess

answers that we are currently in WWI, WWII, French Revolution and the American Civil War, which all look totally different in our history. Hence slavery may well look totally different in our history.

#### 4. The Seventh Kingdom.

00:00 - **"SATAN DOESN'T CARE WHAT POISON YOU DRINK"**.

01:00 - Confronting the popular saying, "Satan doesn't care what poison you drink". Does Satan care if you are part of the KoN or KoS, because both are immoral?

06:30 - Satan did care if Clovis was Catholic or pagan.

11:30 - In 1773 the papacy goes into apostasy. 1798 Satan uses KoS to scatter his people. Comparing and contrasting that to God using KoN to scatter ancient Israel. God does care if we are part of KoN (statue of Dan. 2) or the stone. Therefore Satan cares if you are part of KoN or KoS.

14:00 - How to correctly and incorrectly contrast the above two lines (the scattering of the papacy and of ancient Israel).

16:00 - WWII, the pope and Hitler are in an alliance to take down Stalin. Stalin is Satan's greatest enemy, so Satan cares which one you are part of. As with Clovis, it's not pertaining to whether they are lost or not, rather if Satan can use you to his end or not. E.g. Satan cares if you are Catholic or Muslim evident from the Crusades.

21:30 - Satan's kingdom has to have unity. If divided it will fall. The point is that it does matter if you are an atheist listening to CNN or an evangelical Trump supporter listening to Fox News, as Trump brings the SL.

24:00 - Understanding Satan is not the boss of the KoS makes you realise he cares if you are atheist or Catholic, as he can't control you if you are in the KoS (Mark 3:26). Satan did not use Islam to attach his people but Islam are not God's kingdom.

28:00 - Islam being a new manifestation of Satanic power means you have Satan's qualities, malicious and wicked. Satan used KoS to deliver the deadly wound, not God.

31:30 - At various times God has used KoS, KoN and Islam. So Satan does care what poison you drink, as he is not your boss if you are not in the KoN.

36:30 - Satan would not raise up Islam to attack his own plans. Islam and KoS are proxies of the statue and the stone and external to their kingdoms. Both God and Satan care if you are in the statue, stone or proxies.

44:00 - **ACTS 27.**

44:00 - Revision of Acts 27 so far; the line of v1-5, ToE-SL; the line of v6-44, 1798-SL.

48:30 - The nations of the world pass SLs because the USA has enough dictatorial power as head of the UN to force them to (Rev. 13:15).

54:30 - Conspiracy theories teach the nations of the world are all secret friends, rather than how the news presents certain states not complying with USA. SDAs who believe for example, Walter Veith, reject this message because they believe these conspiracy theories.

1:02 - We see the USA as a dictator in 2016, 2019, Panium and SL, so it is progressive.

1:04 - E.g. Nov. 9th 2019 sees death of dictator (Kaiser Wilhelm) and rise of a dictator (Napoleon) but both are Trump. Just as 6th and 7th head are essentially USA and USA, only in the 7th it can rule the UN as a dictatorship.

1:09 - Admonition on the dangers of listening to conspiracy theories. Contradicting logic of conspiracy theories.

#### 5. The 5th Line.

00:00 - **SUMMARY OF ACTS 27.**

01:00 - Review of the 1st ship, of Adramyttium.

05:00 - Review of the 2nd ship, of Alexandria. Acts 27 was first noticed because Acts 27:27 (a doubling) mentions "midnight".

20:45 - **CONTINUING THE 2ND SHIP (THE 5TH LINE).**

21:00 - The National Reform Movement in America in 1863.

21:30 - v7 Crete (Gr: *fleshy* = worldliness) which is opposite Salomone (Gr: *to overflow* = papal doctrine) to Lasea = 1863-1989 (= 126 years).

23:30 - v6-14 = 1798-911.

24:00 - v27 "*midnight*" and the "*fourteenth*" = Samuel Snow arriving at Exeter on the 14th Aug. 1844 to give the MC.

26:30 - v21-26.

28:00 - EGW says apart from Paul and his companions, those on board had no hope of being saved and were just drifting, waiting to die. v21-26 Paul 1st gives the message of shipwreck = Boston, July 21st 1844. So the message of Paul (v21-26) and then the sighting of land (v27) are the 2 steps (= MN and MC) which lead them to shipwreck (= SL).

33:00 - **SUMMARY OF ACTS 27:6-27.**

33:30 - Paul warns them not to travel at Lasea (1989). Paul also gave a warning at Caesarea (= 1989) but on both occasions it was rejected.

35:30 - They set sail at Lasea (1989) as the favourable south wind (behaviour of Russia) blew softly (v13).

Events of 1989 lead in a very real way to 911, Raphia, Panium and SL. Example of a relay race.

41:00 - **CONTINUING THE 2ND SHIP (THE 5TH LINE).**

41:00 - v28 Every fact has its bearing, so these fathoms have meaning. Added together they = 2520 inches. Tells them how fast they are approaching shipwreck = prediction, calculating time.

45:00 - LP 265.2, discussing the time between 911 and MN, EGW says the ship of Alexandria (meaning Protector/Defender of the People) is a "good ship". The 1st ship is a bad ship, abiding in death. Both ships are the same institutions.

51:00 - They are both the SDA Conference Church structure and the USA. How can the same institutions be both good and bad at the same time?

55:00 - **THE SEQUENCE "MN, MC, SL" APPEARS NOWHERE ON ANY LINE, AND PANIUM IS NOT MC ON ANY LINE.**

55:00 - Panium is not the MC on any of the 4 lines (144000, priests, levites or nethinim), nor is there any fractal which has MN, MC, SL. These 2 concepts only exist on this 5th line (the line of the ship).

1:15 - **RETURNING TO THE ORIGINAL QUESTION, HOW CAN THE SAME SHIP BE BOTH GOOD AND BAD?**

1:16 - The ships are both twin institutions intimately connected; USA and Adventism. Marking the Millerites, priests, levites and nethinim chronologically on this line.

1:18 - The priests, levites and nethinim in the story of Noah. Noah's Ark is the institution.

1:20 - The 2nd ship of Acts 27 (the 5th line) represents the 2 institutions of Adventism and America, separate from the people (priests, levites or nethinim) who only interact with the ship at various times. The people are separate and distinct from the ship. They can board and de-board at various times in history.

1:21 - The MC at Panium is for the ship. The cry is to America and Adventism that shipwreck/destruction for both is ahead (at SL). So shipwreck/SL is CoP for the institutions of America (the lamb-like beast) and Adventism.

1:23 - **SUMMARY OF THE 5TH LINE, THE LINE OF THE SHIP/INSTITUTIONS OF AMERICA AND ADVENTISM.**

1:27 - So to answer the question, America is both good and bad at the same time e.g. it has a Constitution but Trump is a dictator. Until SL then there is nothing good left.

## 6. The 4 Lines.

00:00 - Summary of last presentation, the ships of Acts 27, especially identifying who the 2 ships represent (USA and Adventism) and who the MC at Panium is for.

04:00 - **THE LINE OF THE 144000.**

11:30 - GC 577.1 (chapter 35) to show the SL waymark.

15:00 - Sequence of chapter titles in Early Writings to show how EGW waymarks Oct 22, 1844 and then the SL.

18:00 - Millerites line with 1st and 2nd AM waymarked. How we draw it and how EGW presents it.

19:30 - EW, chapter, "The Third Angel's Message", 1st paragraph places 3A at Oct. 22nd.

21:00 - Next chapter, "A Firm Platform" says people start to step off the platform after Oct. 22nd.

24:30 - The next chapter waymarks Laodicea in 1850.

26:30 - Skipping "The Shaking" chapter, EGW then skips to "The Sins of Babylon" = SL. The chapter, "The Third Message Closed" = Dan. 12:1.

34:00 - Comparing the line of the ship to locate the SL on the line of the 144000.

37:00 - EGW therefore goes from Millerite history, then skips all the reform the church has to go through to do their job at the SL, and goes straight to our job function at SL.

39:00 - **OVERLAYING MILLERITE WAYMARKS ONTO THE TEMPLATE OF THE LINE OF THE 144000.**

40:00 - 1989 = 1798; 911 = Aug. 11th 1840 and April 19th 1844; SL = MN; LC = MC; CoP = Oct. 22nd.

44:00 - Calculating July 21st 1844 as midway using Joseph Bates, ref: 1847, JB, BP2, 721-723. Then Concord and Exeter, and paralleling it to the template of the 144000.

55:00 - **THE LINE OF THE PRIESTS.**

56:30 - 1989 = ToE; 911 = tarrying time; 2014 = SL; 2016 = Concord; 2018 = LC; 11/9 2019 = CoP; Panium = 2nd advent.

1:01 - **THE LINE OF THE LEVITES.**

1:02 - 911-2014 = ploughing; 2014-2019 = former rain; 2019-Panium = LR; Panium-SL = Harvest.

1:04 - **THE LINE OF THE NETHINIM.**

1:05 - 2014-2019 = ploughing; 2019-Panium = former rain; Panium-SL = LR; SL-CoP (Dan. 12:1) = harvest.

Boston, Concord and Exeter = Panium-SL.

## 7. The 5 Lines.

00:00 - Summary of previous class.

01:30 - **THE CRY, SWELLING AND FORMALISATION, THEN THE TEST ON THOSE WAYMARKS.**

02:00 - Adding loK (1818) and formalisation (1833 or 1996) after ToE and comparing it to SL, LC, CoP. At 911 we were tested on ToE, loK and formalisation. So at CoP we are tested on SL, LR, LC.

06:00 - The same repeating pattern at the end and the beginning of the line of the priests.

08:00 - The nethinim's loK and formalisation are the exact same external events of 2016 and 2018 that we recognise.

09:30 - **WE MAY NOT SEE MUCH AT RAPHIA BECAUSE THE DRAMATIC CHANGES TO THE POLITICAL STAGE HAVE BEEN GRADUAL. THE WORLD IS SO DIFFERENT ALREADY THAT ONE MORE CHANGE IN 2019 COULD GO UNNOTICED AND SEEM NORMAL TO US AS WE ARE SO DESENSITISED.**

11:45 - 2014 saw dramatic changes; Syria becomes a proxy war, the rise of Trump, IS Caliphate, and external events have only grown more dramatic but to us it is normalcy and now we think nothing of dramatic events.

14:00 - The nethinim have already passed their loK which we say is the most important and decisive waymark. If they don't pass 2016 they will fail in 2019 (= their 911).

17:00 - **TWO STREAMS OF INFORMATION.**

17:00 - If the nethinim are pro-Trump they fail their "911" test in 2019.

19:30 - Priests in this movement who were pro-Trump since 2016 were failing the test of the nethinim. So if we were doing public evangelism we would have caused them to fail their loK!

22:30 - 1989 the 2 streams of information were the mainstream media (the true) vs conspiracy theories (the false) i.e. Russia faked her own fall.

24:00 - 911 the 2 streams of information were the mainstream media (the true) vs conspiracy theories (the false) i.e. 911 was an inside job.

25:30 - In Acts 27 the false prophet arrives at MC and there is both an internal and an external false prophet. The nethinim's test from 2014-2019 is left wing mainstream media (the true) vs right wing mainstream media and conspiracy theories (the false).

28:00 - **THE DIFFERENCE BETWEEN BOSTON, CONCORD AND EXETER DURING THE LR, IN THE LINE OF THE PRIESTS AND THE NETHINIM.**

28:30 - Boston, Concord and Exeter during the harvest of the nethinim (SL-CoP). During Boston, Concord and Exeter in the LR of the nethinim (Panium-SL) the nethinim do not join our movement, not until after the SL.

33:30 - However on the priests line, those that respond to Boston, Concord and Exeter during the LR do join the movement.

36:30 - The levites and the nethinim go through the majority of their line on their own, without joining this movement.

38:00 - The progressive and individual nature of the CoP for the nethinim from SL-Dan 12:1.

40:00 - The priests alone are the 144000. When the wise priests pass Raphia they still have to be trained through each successive harvest for a greater task.

43:00 - Reiteration of the progressive and individual nature of the harvest of the levites and nethinim,

contrasted to the point in time for the CoP of the priests.

46:00 - The harvest time for the priests is not to bring people in, but is like Jesus 40 days in the wilderness (as priests are 30 years old at Raphia which can therefore = 27AD). We will need to study our message as we made mistakes and prepare/train for working with the levites.

50:00 - Suggestion that the levites might teach the nethinim, but most of the teaching is by the priests. The levites and nethinim will share their message but not in the capacity we teach. The levites and nethinim are likened to the Jews who just had to accept the message of the disciples (who had to learn it over a period of years) and get baptised, or the animals who just have to board the ark which Noah (the priests) spent all those years building.

52:30 - **MN, MC AND SL ONLY APPEAR IN THAT ORDER ON THE LINE OF THE SHIP.**

52:30 - Explanation of how this sequence does not appear on any of the lines.

59:30 - MC is a small waymark, where as MN and SL are big waymarks.

1:02 - The ship is being cried to at Panium, so the only line where Panium = MC is this 5th line, the line of the institutions of America and Adventism (the ship). This because they both face shipwreck at SL.

1:06 - Paul gives the cry to the ship. Paul is a priest so it is part of our job function to cry to the ship.

1:08 - The ship is both good and bad. You don't seem to be able to overlay the agricultural model on this 5th line.

1:11 - The end of the ship, and therefore the end of the USA (6th kingdom) at SL is also the waymark where the USA heads the UN (7th kingdom). As the ship is also Adventism, the shipwreck/SL is where Adventism ends (every last levite has left) but therefore also the beginning of Adventism in a different sense. To be discussed in subsequent class.

## 8. Boston, Concord, Exeter.

00:00 - **REVISION OF LAST CLASS.**

03:30 - The line of the 144000 compared with the Millerite line.

11:00 - The repeating pattern of the loK, formalisation/LC, and test on that message.

14:00 - The line of the priests.

18:00 - The line of the levites.

24:00 - **CONCORD AND EXETER.**

26:00 - The Russian Internet Research Agency (IRA) assisted Trump in the 2016 election (2016 = Concord). The subsequent US attack on the IRA before the midterm elections. The IRA is funded through "Concord Management and Consulting".

28:30 - Trump was using Cambridge Analytica, and Alexander Nix (the CEO) revealed his strategies at "Concordia" also in 2016 an announced how they were doing this for Trump.

30:00 - Meaning and implications of the word "Concord"; harmony, union, agreement, compact, treaty.

32:00 - Showing how Concord for the levites is 2020 from the line of revolution and counter revolution, particularly the American Revolution and the Battle of Concord and Lexington.

34:30 - The line of the nethinim including the loK and LC after SL.

38:00 - 273 British casualties at the Battle of Lexington and Concord on the line of the levites corresponds with 273BC on the line of the nethinim, and both appear at Concord.

40:00 - The progressive and individual nature of the harvest of the levites and nethinim, and the difference to the harvest of the priests.

41:30 - Concord and Exeter call the priests into the movement, but Concord and Exeter does not call the levites or nethinim into the movement.

44:30 - No one is entering the movement between Raphia and Panium. Tess suggests there are currently many deeply concerning things in this movement so we may need the time during Raphia to Panium to regather and retrain.

47:00 - There should be an agitation for the levites before their SL (11/9, 2019) and after it, this movement should be brought more into their focus during their Concord and Exeter, even though they do not join us until their harvest. There is a Concord and Exeter between every major waymark on all the lines. One example of Exeter using external events only in 2018.

54:00 - **ELABORATION ON CONCERNS IN THE MOVEMENT.**

54:30 - We failed at 2012, 2014 and 2016. The majority in the movement who think they understand the MC of 2018 in fact do not and may not even be aware of the external events. Our 1st work should be to look

back and ensure we now have a correct understanding of everything we failed.

56:00 - The MC of 2018 began in 2014 based on Parminder's methodology. The people who struggled with Parminder in 2012 are the exact same people who struggle with the MC message of 2018, and that's because it is the same methodology. Some have said Parminder's classes on methodology are boring, then they make mistakes and listen to false messages e.g. the error that was taught in Arkansas Prophecy School, April 2019. They didn't listen to Parminder's methodology so don't understand the message of 2018 and inevitably fail on Nov. 9th 2019.

58:00 - Internally we have problems because from 2014 we should have been studying Parminder's methodology. Externally we do not understand the role of Trump and the SL. Now, right before our CoP, those that did not study Parminder since 2014 are misusing typology and parable methodology. We need to correct all this before we are fit to bring in any levites. Adventists who *want* to join this movement and accept the message of 2018 then go on youtube and even they can see conflicting methodologies in studies like the false "Calender Work" which made a prediction for July 2020.

1:01 - **THE TESTS ARE PROPHETIC TESTS, NOT MORAL.**

1:02 - The nethinim who accepts the LC would not have time to reform his moral character by Dan. 12:1.

1:04 - Hence on Nov. 10th 2019 the priests will have been tested on the prophetic message but still have a Mediator for moral sin. The test is on how you have done from 2014-2019. We have an Advocate until Dan. 12:1.

1:11 - We cannot just bring all aspects of Dan. 12:1 to Raphia for the priests (like no Mediator) or we would be forced to bring all aspects of the 2nd Coming to Panium and insist the priests go to heaven at Panium.

1:12 - We are continually being trained during our harvest, and each of the subsequent harvests.

1:12 - Raphia is not a "symbol" of CoP for us. It is our "real" CoP but on a prophetic test.

1:17 - Panium is also a test that the priests have to pass. In Italy 2018 Parminder explained how the many who are overthrown in Dan. 11:41 are at first free, therefore of this movement. So we are tested at every waymark as we are continually being trained.

## 9. Change of Leadership.

00:00 - **REVISION OF THE 2 NEW WAYMARKS, CONCORD AND EXETER.**

04:00 - Many helped build Noah's ark but didn't board, and many have contributed information to this movement but fell away.

10:00 - Panium is only a MC on the line of the ship.

16:30 - The MC is a cry to the ship (USA and Adventism), not individuals (like levites or nethinim).

19:00 - The CoP for the ship is SL (shipwreck), so we can correctly draw MN, MC, CoP which is a correct sequence. No reform line gives us license to say MN, MC, SL.

25:00 - **THE FALL OF THE USA AND THE RISE OF THE U.N.**

25:30 - Acts 27:4-5, From Cyprus (MC) to Myra (SL = CoP for Adventism) via Cilicia (to overturn) and Pamphylia (a nation made up of every tribe). This represents the progressive fall of the 6th kingdom (USA) and the progressive rise of the 7th (UN).

27:30 - Although USA falls here, it actually becomes stronger in that it heads the 7th kingdom (UN) as a dictator.

31:00 - **CORRECTING OUR PREVIOUS ERROR IN "THE JOINING OF THE TWO STICKS".**

31:00 - Explanation of our current understanding of the joining of the 2 sticks; the 2 tribes (priests and levites) and the 10 tribes (nethinim) joined together from MC-SL.

33:30 - The problem is, now we understand from MC to CoP (= SL) is the harvest of the levites. So the nethinim cannot join us until their harvest (SL-Dan. 12:1). MC-SL is the LR for the nethinim, so they cannot be harvested during their LR.

35:00 - **CHANGE OF LEADERSHIP BETWEEN MC AND CoP (= SL)**

35:30 - RH Sept. 8th 1885, paragraph 5. Despite Paul being a prisoner of the ship, he gives the orders between MC and CoP (= SL). Just as the USA falls from MC-CoP (=SL) so too does Adventism, but just as the USA becomes the leader of the UN, so too does Paul become leader of the ship. So the institution of Adventism falls while Adventism under different leaders rises.

40:00 - The correction we need to make is that it is not the nethinim that are rising up from MC-CoP (= SL), it is in fact the priests (= Paul).

## 10. 273 and Pyrrhus.

02:30 - **CONTINUATION OF THE SHIP FROM ALEXANDRIA.**

06:00 - Acts 27:33-35, Paul is feeding bread to the levites; giving them the message between Panium and SL (MC-shipwreck).

09:00 - v36-37. No moral lesson in these verses which is all the SDA Church would look for, but we look for prophetic significance through parable methodology.

11:00 - Morally it wouldn't matter when Paul gave the levites bread, but prophetically it has to be between Panium and SL as that is their harvest.

12:00 - Overview of the 2 groups manifested on the island and Castor and Pollux.

16:00 - Paul is bitten by a snake but can't die. The priests become the 144000 by this point. By Acts 28:4 we see priests, levites and nethinim.

21:00 - AA 444.2 numbers the shipmen at "275 souls". LP 264.1 says, "300". LP 268.3 says, "276" and LP 270.1 says, "nearly 300 souls". 275 is the no. discouraged. 276 and "nearly 300" are factually accurate, but "300" is rounded up and is there so we can use it as a symbol e.g. Gideon's army.

30:00 - **273 USED TO IDENTIFY THE LEVITES IN PROPHECY.**

30:00 - Acts 27:2 gives us the number 273 (= levites). 276 minus Paul, Aristarchus and Like.

34:30 - Num. 3 and the levites who were 273 short of fulfilling their role replacing the firstborn.

38:00 - **273BC AND PYRRHUS.**

40:00 - The basic line of Pyrrhus in Macedonia, 317BC - 285BC.

47:30 - The basic line of Pyrrhus in Italy, 282BC - 272BC.

54:30 - Beneventum = Panium, 272BC = SL, which corresponds to Cilicia and Pamphylia (fall of the USA and rise of the UN). NB: The dictatorship in the USA is now heading the UN, also as a dictatorship.

57:00 - Concurrently the KoS is progressively falling which is directly why the US is gaining power to rule over the UN as a dictator; because Russia is no longer strong enough to stand in her way. 272BC = SL which = both Argos and Lycia which both mean "harvest".

1:02 - Quote from Trump where he compares the rise of the internet with the rise of US superpower status. We mark both at 1989. Both aspects were facilitated by the fall of the KoS. Bush then delivers his version of a new world order, being US dominance, realised by way of example, in the illegal Iraq war in 2003.

1:08 - Question: What about China being a superpower? Answer: Our world view seems to influence our perspective of prophecy which is an incorrect approach. Where is China in Bible prophecy? An example of the damage that has already occurred in one country due to this kind of subjective interpretation of current events and prophecy. People will be lost due to this episode.

1:12 - Audience comments on comparison of US military spending with other countries and sister Tess' response of its significance to present day warfare with Russia.

## 11. Alpha and Omega.

00:00 - **SUMMARY OF PREVIOUS CLASS.**

04:00 - Pyrrhus = Putin.

06:00 - **THE KINGS OF EPIRUS COMPARED WITH THE LEADERS OF RUSSIA.**

12:00 - Pyrrhus = Putin, and Putin = Stalin, therefore Pyrrhus also = Stalin. Pyrrhus in Macedonia = his alpha history, and in Italy is his omega history. So we can compare Pyrrhus' alpha history with Stalin and therefore WWII.

14:00 - **THE LINE OF WORLD WAR II.**

14:30 - The line of WWII beginning with the Spanish proxy war followed by Stalin's interaction with Hitler. Ending with the Cold War until 1989.

19:30 - Pyrrhus tried to establish an empire in Italy because he failed in Macedonia.

23:00 - **GRID ILLUSTRATING THE LINES OF FAILURE (ALPHA) AND SUCCESS (OMEGA).**

25:00 - Populating the grid with the alpha and omega histories of Pyrrhus, WWII and WWIII, and noting who was the victor.

29:00 - Using the above histories to show who is the victor at Raphia and Panium by comparing and contrasting the alpha and omega histories.

32:30 - The point being that the alpha history is a history of failure, and the omega history is a history of

success.

33:00 - **THE LINE OF ANCIENT AND MODERN ISRAEL.**

34:00 - We cut the line and separate the Millerites' line from that of the 144000, and show how the alpha is a history of failure and the omega is a history of success. Then we do the same with ancient Israel.

36:30 - We only have an omega history because the alpha history failed.

38:00 - **QUESTION AND ANSWER.**

39:00 - While Demetrius was the KoN, he ruled both the north and the south of Macedonia, engulfing Epirus.

## 12. The Structure of Daniel 11:40.

00:00 - **SUMMARY FROM THE BEGINNING OF THE SERIES.**

01:00 - Review of the Dan. 2 and the KoS is neither in the kingdom of God nor Satan.

09:00 - Review of the line of the nethinim compared with the Millerites' line, and the nethinim's external tests e.g. Conspiracy theories, right-wing news and morality enforced by govt.

32:30 - Review of the comparison of the alpha and omega lines of Pyrrhus with the alpha (Stalin) and omega (Putin) histories of the KoS. Comparison with ancient and modern Israel. Alpha lines are failure, omega lines are success.

42:30 - **DANIEL 11:40 AND THE DEATH AND RESURRECTION OF THE PAPACY.**

47:00 - Dan. 11:40a. The war between the KoN and KoS is before 1798, from 1789. The only actual battle in 1796.

48:00 - Rev. 13:5, 10. 8MR 354.1-2, Pius VI fulfilled the prophecy and went into captivity and received the deadly wound. The papacy did fully die.

55:00 - Dan. 8 says when Alexander dies, when the prominent horn is broken, it is the end of the Greece. So Rev. 13:10 is referring to the pope and the papacy. The pope really died (1799) and the papacy really died.

59:30 - Rev. 17:8, the papacy did not just receive a wound but recover from it. It really did die, go into the grave and then resurrect/ascend.

1:02 - Dan. 11:40b. 1989 was the deadly wound of the KoS. 1991 was the death, which included the political death of Gorbachev. Comparison with the deadly wound and the death of the KoN (both pope and papacy).

1:11 - By comparing and contrasting we can see how the KoS receives a deadly wound, fully dies and then resurrects.

1:13 - Does the KoS go into scattering? Just because a kingdom continues to exist, in prophecy it does not mean it is still alive. When a kingdom loses its power it is prophetically dead.

1:22 - We will answer the question in the next class.

## 13. Coele Syria.

00:00 - **REVISION OF PREVIOUS CLASS.**

01:00 - We showed alpha and omega histories of Pyrrhus, and with Dan. 11:40 part a) and part b). By comparing and contrasting we saw the KoS receives a deadly wound and then really does die, then resurrects.

17:30 - Passing comment that the KoS had already started to resurrect before 2016, and the resurrection of the KoN might look different to what we expect.

22:00 - Comparing the progressive death of 1989-1991 to Panium-SL to show how it might look different than we expect at Panium.

26:30 - Did the KoS die progressively at the literal battle of Panium? Ref: Dan. 11:4-15.

31:00 - **THE LITERAL HISTORY OF DAN. 11:4-15.**

31:00 - The history of the 4 Diadochi Wars ending with Ipsus.

36:00 - Coele Syria was a sphere of influence contended over by Ptolemy and Seleucus' sons, which led to the 6 Syrian Wars.

40:00 - Dan. 11:13-15, Panium, the end of the 5th Syrian War. The KoN (Seleucus) and KoS (Ptolemy) are fighting over Coele Syria, a sphere of influence, not each other's territory. Seleucus failed to take Egypt.

45:00 - This model is seen in the Cold War when the KoN and KoS are fighting over spheres of influence. Neither America nor Russia wanted each others mainland. The death of a power is its loss of political

power, not that it ceases to exist.

49:00 - The New World Order and by looking at 1989 we can see how Panium will look. Not a hot war. Internal disintegration.

53:00 - **PRESENT DAY SPHERES OF INFLUENCE.**

53:30 - In depth look at the energy wars between Russia and America in the Middle East since 2009. The 2009 Qatari and 2011 Iranian natural gas pipelines.

1:01 - The Arab Spring and ensuing Syrian Civil War interrupted the construction of the Iranian pipeline. It is prolonged by the support of Russia and America.

1:03 - Other present day spheres of influence e.g. Venezuela, Ukraine, China. In 1991 the USSR lost all its spheres of influence which amounted to political death. We may not see Putin and Russia wiped out from Panium-SL. We might just see Putin lose one or more spheres of influence (proxy war).

#### 14. Questions on the King of South.

00:00 - **VENEZUELA.**

00:30 - The Venezuelan govt. is being propped by Russia, but the US are sanctioning them heavily in an attempt at regime change. Potential for proxy war there too. Russia has loaned the govt. \$17bn. so if it falls it will default and Russia will never see her money.

07:00 - **THE PROBLEMS OF "CALCULATOR METHODOLOGY" AS OPPOSE TO PARABLE METHODOLOGY.**

08:00 - 1989 + 30 years = 2019, the story of the priests.

10:00 - Refuting the calculator work of just adding years to dates to arrive at "predictions" without threading a story/theme through the waymarks e.g. 1991 + 30 = 2021. Problem is 1991-2021 is not the story of anyone. Also 1991 = death of Russia but 2021 = deadly wound so the theme does not correspond.

15:00 - At SL, Russia does not have to end, it just needs to lose its influence.

19:00 - **REVISION ON THE SCATTERING OF THE KoS.**

19:30 - The deadly wound, scattering and captivity of the KoN in 1798. Compare and contrast with the deadly wound and scattering of the KoS in 1989.

23:00 - The KoN was scattered because she failed her job function; to control the kings and persecute God's people. 1773 the papacy was given the ultimatum to abolish the Jesuit order and give up some of her lands. She only agreed to abolish the Jesuit order. Laodicean condition as she wanted to retain her temporal prosperity.

26:30 - So her boss, Satan, brought the KoS against her. The counterfeit of the scattering and captivity of ancient Israel, when God brought the kings of the north against them.

30:00 - If the KoS received a deadly wound and was scattered, when did the KoS go into apostasy? She did not as the KoS has no boss, so has no one to disobey. It is like an independent ministry.

35:00 - Comparing and contrasting the scattering of modern Babylon with modern Israel.

38:00 - There are 2 histories that make up modern Israel (alpha Millerites and omega 144000), so there are 2 which make up modern Babylon. If a 3 step prophetic message is required to bring modern Israel out of captivity, then modern Babylon will need the same. The Millerite message was just for them and their time. So the message of Fatima was just for them and their time.

41:00 - The 1st and 2nd AMs started and ended in the Millerite time, then the 3rd AM carried on through time. The 1st and 2nd world wars started and ended in the time of the alpha of modern Babylon, then the 3rd world war (beginning 1945) carries on through time until it's empowered.

#### 15. Modern Babylon vs Modern Israel.

00:00 - **REVISION OF LAST CLASS.**

03:00 - Comparing and contrasting Dan. 11:40 part a) and part b). The deadly wound, death and resurrection of the KoN and the KoS.

05:00 - Both were scattered but the KoS did not go into captivity, unlike the KoN. So to understand captivity you have to compare and contrast modern Babylon with modern Israel. This is where we left off yesterday.

08:00 - **COMPARING AND CONTRASTING MODERN ISRAEL WITH MODERN BABYLON.**

09:00 - The captivity of modern Israel and their gathering from 1798-1844, then again from 1850-1863 (RH Nov. 1, 1850, para. 9), and lastly from 1989 (including the waymark of 1888).

19:30 - Marking the prophethoods of W. Miller and EGW, and the 3AMs. The alpha and omega of modern Israel.

23:00 - **THE LINE OF MODERN BABYLON.**

23:30 - The scattering of modern Babylon from 1798-1917 (Fatima) and their 2 prophets.

27:00 - The 3 secrets of Fatima; hell (fear Satan), consecrate Russia, judgement upon the Catholic Church if they fail to do the 2nd.

29:30 - Brief history of Russia (the revolution) and the papacy (in captivity) in 1917. Lucia = EGW.

34:00 - History of Marcantonio Pacelli and his 2 grandsons, Francesco (drafted and introduced the Lateran Treaty) and Eugenio (rewrote Code of Canon Law).

37:00 - History of Eugenio's work, especially on Canon Law and its relation to Hitler's Germany.

43:00 - Catholic leadership in Rome passed by with the 'prophethood' of a young girl, Lucia in Portugal. The leaders rejected the message until Pius XII (Eugenio Pacelli).

51:00 - 1945, the papacy's great disappointment at Hitler's defeat and subsequent scattering until Nov. 1 1950 when Pius XII attempted to gather Catholics against Communism, with the Dogma of the Assumption of Mary.

59:00 - 1958, the death of Pius XII. The next pope, John XXIII rejected Fatima and called the 2nd Vatican Council in 1962.

1:00 - Vatican II and the secret deal between Russia and the pope. His refusal to openly condemn Russia = leaders reject the message of Fatima.

1:05 - Vatican II was also reorganisation (= 1863 for the Millerites). Catholic Church scattered from 1962-, including the failed attempt to regather under JP II in 1989 at the fall of the USSR (= 1888).

## 16. Half Right/Half Wrong.

00:00 - The first 2 mins. of this presentation were not recorded.

### **THE HISTORIES WHICH WERE HALF RIGHT AND HALF WRONG.**

00:30 - EGW says in 1844 God made no mistake. The Millerites made the mistake. They had enough light to know Oct. 22 was not the 2nd advent but the CoP. Snow was half right and half wrong. After July 21st 1844 you are required to follow Snow not Miller to pass the test of Oct. 22nd.

02:30 - Jones and Waggoner in 1888 were opposed by Butler and the leadership. Waggoner was half right and half wrong.

05:00 - The differences with counterfeit church. Pius XII was half right because he accepted Fatima but half wrong as he should have stayed with the USA instead of backing Hitler.

08:00 - The ongoing work of Vatican II was being undertaken by the Jesuits. Just as Butler in 1886 wrote that Waggoner challenged the traditional view of the leaders, in 1987 Malachi Martin wrote about the Jesuits challenging JP II's traditional church teachings. The Jesuits were half right and half wrong because they were doing the work of Vatican II but rejected the message to consecrate Russia.

### **17:00 - THE LINES OF FAILURE AND SUCCESS.**

17:30 - 1945 = Panium. 1945 KoS defeats KoN. Panium KoN defeats KoS, so it is switched from the line of failure (WWII) to the line of success (WWIII). Panium is a success because the papacy are riding the right beast (USA) and doing the right work (taking down the KoS).

### **20:30 - SHOWING HOW PARMINDER WAS NOT HALF RIGHT HALF WRONG.**

20:30 - It was taught in Arkansas, April 2019 that Parminder was half right and half wrong in his prediction of 2012 by comparing Parminder to Snow in 1844 and Waggoner in 1888, but this is incorrect. Miller and Butler = elder Jeff. Snow and Waggoner = Parminder.

22:30 - Elder Jeff was the leadership who defended the traditional position of no time setting. Elder Parminder challenged the traditional teachings when he predicted the SL would come in 2014.

23:15 - 2014 *was* the SL for the priests. Elder Parminder was fully right. The SL of Dan. 11:41 is not SL for all people as it is not the SL for the priests, levites or nethinim! God had not even sent light on fractals in 2012 so it was impossible for God to specify it was just for the 'priests'.

26:45 - The biggest error was to take 2 lines of failure and compare them with our line of success. You cannot compare Moses line of failure with Christ's line of success. Ancient Israel saw captivity in Egypt followed by captivity in Babylon, followed by captivity to the Romans, showing the pattern of failure, failure, success.

30:30 - Modern Israel sees 1844, 1888 and the 144000; failure, failure, success.

31:00 - **POPE BENEDICT AND POPE FRANCIS = ELDERS JEFF AND PARMINDER.**

31:30 - In 1989 it was JP11 v Jesuits, but now Pope Francis is a Jesuit. Plus Francis will be successful at defeating the KoS, so this is a line of success. He is a Jesuit and he defeats the KoS.

33:30 - In the alpha of the counterfeit church there was not 2 consecutive leaders, it was just Eugenio Pacelli all the way through WWI and WWII.

35:00 - When Benedict XVI resigned and threw the mantle to Pope Francis, for the first time in 600 years there were 2 popes living concurrently. The traditional, conservative Catholics disapprove of Francis.

38:30 - In Sept. 2018 Francis pushed the Jesuits to finish the work of liberalism and Vatican II. In April 2019 Benedict blamed the abuse within the church on liberalism and Vatican II. So in April 2019 Benedict threw the mantle to Francis then completely undermined Francis' message.

40:30 - At exactly the same time, in April 2019, elder Jeff threw his mantle to elder Parminder then completely undermined Parminder's message (his prediction of 2012) by saying it was half right and half wrong. However Jeff incorrectly took 2 histories of failure and tried to draw a conclusion from a line of success.

44:30 - This is the importance of studying parable methodology as oppose to calculator work and just adding dates and numbers in a vacuum leading to distraction or fanaticism.

46:00 - Some laugh at the concept of "the disciples of Parminder" and suggest they are overly loyal to him, but sister Tess notes how, as she travels from country to country, she sees it is only those who have been listening to elder Parminder and studying his parable methodology that understand and accept sister Tess' MC message.

47:00 - The time to follow Parminder and learn his methodology was July 21st 1844 or i.e. 2014. If not we need to go back and catch up. It is not in 2019 (= Oct. 1844) that we '*start*' to follow Snow/Parminder.

48:00 - The message given in Arkansas in April 2019 misused parables and was dangerous. Saying Parminder was half wrong, provided an excuse to those who want to oppose Parminder and the MC message.
